### Customer Responsibilities:

#### **Add Water to Proper Operating Level Prior to Day of Opening**

Run Filtration System for At Least 24-48 Hours **After** Opening then  
Bring Water Sample to Monarch Pool Care for FREE Testing & Analysis

\* NOTE: Many factors can affect the quality of your pool water and it is possible, at opening, that your pool may need special cleaning attention to achieve a swimmable environment. We will strive to leave you with a clean pool at opening. If, however, further cleaning is required, additional fees will apply.
